#### Register for Course(s):

Once you are logged into your account, click on the **Courses** tab to review a list of available courses.

You'll want to find the CSM course that is equivalent to the high school course you're taking. (Refer to the info letter you've received or ask your high school instructor if you are unsure which course to select.)

When you've selected the course, you may see different sections to choose from. Find the section with your current high school course instructor and click the **REGISTER** button to start the registration process.

Your part of the registration is done for now. You will receive an email letting you know when your registration is complete or if more information is needed.

If you are taking more than one high school course eligible for Dual enrollment, you may register for other courses under the Courses tab, or check your registration status under the Status tab.

## **Parent Consent**

After a student initiates the registration process, the parent will receive ongoing email and/or text notifications. The notifications will either provide you with an update on the status OR request consent to register for given term. *Note, sometimes the email notifications are delivered to your JUNK or SPAM folder – check these folders for the notifications.* 

Note: Parents do not have accounts that allow you to log into the system; only students can log directly into DualEnroll.com.
